

# ***BELT OIL SKIMMER***

## **Belt Oil Skimmer**

The Belt Oil Skimmer is widely used in CNC machine tool and processing center. It can separate the floating oil and grease from the water agent and emulsion. This process can extend the time of change the liquid, and extend the life of cutter, which will improve the machining accuracy

Model NO.	Capacity	Belt Type	Belt Width	Belt Length	Power	Voltage	Weight
SPB - 9LN	0-9 L/Hr	smooth sheet	50 mm	1500 mm	10W	220/1 phase	4 KG
SPB - 20LN	0-20 L/Hr	smooth sheet	70 mm	1500 mm	15W	220/1 phase	6.5 KG
SPB - 30LN	0-30 L/Hr	smooth sheet	80 mm	1500 mm	25W	220/1 phase	8 KG
SPB - OSMT-9L	0-9 L/Hr	Wire Mesh	40 mm	1300 mm	10W	220/1 phase	4.8 KG
SPB - OSMT-20L	0-20 L/Hr	Wire Mesh	60 mm	1300 mm	15W	220/1 phase	5.6 KG
SPB - OSMT-30L	0-30 L/Hr	Wire Mesh	70 mm	1300 mm	25W	220/1 phase	8.7 KG

### Advantage

1. Good quality stainless steel belt which is high oily and hydrophobic
2. Small volume which can be installed on small CNC and processing machine
3. Install and operate easily
4. Low energy consumption and high efficiency
5. Open and close automatically at any time within 24hours
6. The belt length is customized as the customer's request.
